Summary of Changes	Course Title, Course Description, Prerequisites, Restrictions
	CjPolitics.

		Course Title on Transcript	Int Environ Law and Politics
		Course Title on Calendar	International Environmental Law and Politics

Rationale		Title change and course description: changed to better reflect the interdisciplinary nature of the course. Pre-requisites: broadened to allow non-MSE undergraduate students, who have acquired the necessary background through channels other than ENVR, to register in this course without first gaining instructor permission. Restrictions: addition to ensure that students cannot also take the cross-listed course CMPL 546.
Responsible Instructor		
Course Description	How the problem of environmental degradation is dealt with at the international level. The scope and nature of global environmental protection issues across boundaries, both physical and conceptual. Actors, structures and processes of international society. Consideration of global commons and transnational resources and of environmental externalities.	Examination of institutions and processes for global environmental protection. Consideration of means for advancing international cooperation for environmental protection, focusing on international law. Analysis of obstacles to applying international law to environmental problems. Examination of a range of governance structures for environmental protection and the way in which they operate.
