

**Summer Institute in Peace, Health and Sustainability
Hosted by PEGASUS Institute and McGill University**

**Environment and Global Health Course
June 2nd - June 6th, 2023**

Meet our Instructors

Neil Arya (BASc MD CCFP FCFP DLitt) was Adjunct Professor in Environment and Resource Studies at the University of Waterloo for almost 20 years. Dr. Arya was twice Chair of the Ontario

Trevor Hancock is a public health physician and health promotion consultant. He 'retired' in 2018 from his role as Professor and Senior Scholar at the School of Public Health and Social Policy at the University of Victoria. He is one of the founders of the (now global) Healthy Cities and Communities movement and co-founded both the Canadian Association of Physicians for the Environment & the Canadian Coalition for Green Health Care, and was the first leader of the Gr

and earlier received a postgraduate degree in political sociology from Université de Lille, France, and an MSc in gerontology from King's College London.

Jonathan is a French national with permanent residency in Ecuador since 2016.

Esther Yazzie-Lewis grew up south of Farmington, herding sheep and farming. Navajo is her first language and she acquired English at school. Ms. Yazzie-Lewis received a Bachelor of Arts in Political Science, and a Master of Arts in Public Administration and in American Studies from the University of New Mexico. Prior to receiving her BA and MA, Ms. Yazzie-Lewis worked for the Navajo Law Enforcement and Navajo Judicial Branch. In service to her people, Ms. Yazzie-Lewis worked with the Navajo People on the Navajo/Hopi land dispute, on issues related to environmental and social justice, and on uranium problems within the Navajo reservation. As a result, she co-

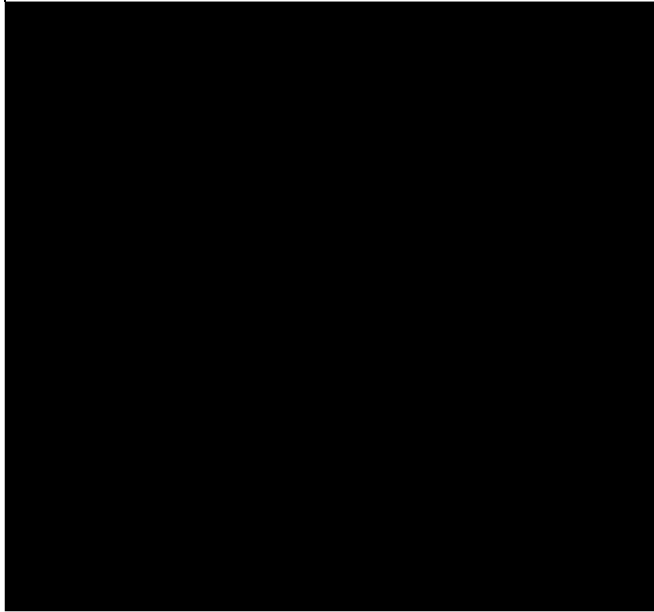

Bénédicte Jacquemin has a degree in Medicine from the National Autonomous University of Mexico (2000), a Master in Environmental Sciences from the Autonomous University of Barcelona, Spain (2005) and a PhD in Life and Health Sciences from the University Pompeu Fabra of Barcelona, Spain (2007). She did a postdoc (2007-2009) at the Institut National de la Santé et de la Recherche Médicale (INSERM), in the Respiratory and Environmental Epidemiology team in Villejuif, France. In October 2009 she became a researcher in the same instivetiIchtanche Ir ihe

occupational exposures to traffic-related air pollution
and to night shift work.
